DETAILED ACTION

Allowable Subject Matter

Claims 11 – 24 and 26 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 11 – 24, the Reasons for Allowance were put forth in the Final Office Action (mailed: November 25, 2008). Regarding new claim 26, the prior art does not disclose the use of a display for displaying a score (and special timing marks at timing adjustment points) and a timing input device wherein a musician inputs timing (from the timing input device) at the exact timing as the music mark, then adjusts the tempo or beat duration. In other words, as interpreted by the Examiner (in accordance with Applicant's specification, paragraph [0082]), by merely actuating the input device the invention adjusts a tempo (or beat duration) based on the exact time that the input device was actuated. This tempo modification method allows musicians to easily modify the tempo (or beat duration) without having to manually drag a timing mark or entering the beats per minute (i.e., modify the tempo on-the-fly). The Applicant's invention also allows users to vary his or her performance tempo and easily modify the display "tempo" at each timing mark (e.g., for playing long rubato sections).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See Notice of References Cited (PTO form 892).
